WOW...what an amazing program! Network New Ulm was a great experience. From history & culture, local businesses, government, law enforcement and healthcare, etc. it was a great program. I learned a lot about the community that I work and live in and would recommend this program to others who are new to the community or have lived here all their lives. Each program was educational and fun, not to mention networking with fellow NNU participants.

It has been fascinating to learn so much about this town I've called home for over 20 years. I had no idea our town had so many different industries and facets and it's been great to learn about them and see how they all work together. Network New Ulm has been a wonderful opportunity and I highly recommend it for anyone that has the chance. Every session has been filled with so much information and it's been great to meet and connect with other local people, as well.

As a new business owner, it provided me with connections, resources and support that gave me confidence and a feeling of truly being a part of the community. The sessions were fun and offered useful information. The diverse group provided such a wealth of perspectives that really promote creativity in running a business in this type of market and inspire pride in the community in which I live and serve. I am so glad I could be a part of this fantastic organization. It's been fun and so beautifully run!

This is not your average networking program. If you're new to the community or a lifelong resident, this program is a must. It provides a power and impactful way of networking that no other program will offer. The variety of interactions with workplace professionals, from the county sheriff to the governor of Minnesota, makes this program well worth your investment. A byproduct of this environment is friendship with other business professionals. Join, it will be a highlight of your professional development.
