Network New Ulm has taught me so much about parts of New Ulm that I was completely unaware of and it has been very eye-opening.

This group is very informative! I lived here most of my life and still saw and learned new, wonderful things.

I've learned so much about New Ulm that I never knew, even after living here 7 years! I've met new people and made great connections.

I've learned so much about our community that I never would have had the opportunity to. I think every community member should participate in this program.

I really enjoyed my time spent with Network New Ulm. I learned so much more about the community in which I live; the businesses, the services, the people. It was not only educational, but I've networked with others in the community and made new friends here that are not only a joy to know and spend time with, but I know will partner with me in making our community a better place. My only regret is that I didn't sign up for Network New Ulm when I first moved to town, but waited until I'd been here for several years. Sign up for Network New Ulm today! You won't regret it!

I am new to the community, and I felt Network New Ulm was an invaluable resource for me but even if you are from the area there is so much to learn. I also enjoyed the leadership training and networking with other professionals. I highly recommend this program.
